Program Overview

The Master of Science in Psychological Counselling at Surana College - Autonomous offers a thorough curriculum that integrates theoretical foundations with practical experience. This program is designed to provide students with an in-depth understanding of human behavior and the essential skills to support mental health and well-being. Focusing on emotional intelligence, therapeutic techniques, research, and personal development, this course prepares students for a variety of professional roles in areas such as counseling, therapy, education, healthcare, and human resources. The program opens up diverse career opportunities for those passionate about helping others navigate life's challenges.

KEY FEATURES

- **On-Campus Wellbeing Centre:** Provides a dedicated space for hands-on training, where students gain practical experience by working with real clients under expert supervision, enhancing their counseling skills in a professional environment
- **Practical Exposure:** Includes supervised internships in mental health clinics, schools, NGOs and corporate wellness programs, offering opportunities to apply learned skills in real-world scenarios
- **Skill Development:** Features value-added training in therapeutic approaches such as CBT, REBT, mindfulness-based therapy, and other evidence-based modalities, alongside workshops on empathy, active listening, and cultural competence
- **Ethics and Social Responsibility:** Emphasizes the importance of confidentiality, ethical decision-making, and building trust in client-counselor relationships, preparing graduates to practice responsibly

VALUE-ADDED COURSES

- Computer Skills for Psychologists
- Basics of Cognitive Retraining
